Property Description

This is a fantastic opportunity to invest in the Byron industrial area with potential to improve and receive a fantastic return or occupy for your own business.

With frontage to Bayshore Drive and access via Brigantine Street, it would be difficult to find a site with better exposure. The lower level consists of a long term, established local business with retail area, powder room, storage, and open space for manufacturing. Upstairs, the managers residence features open plan living and kitchen, plus 2 bedrooms/offices and a bathroom.

There is plenty of room for any number of commercial or creative pursuits - the possibilities are endless and this property presents a rare opportunity as the Byron Arts and Industrial Estate is more tightly held than ever.
